

THOKOZANI MKHIZE

FRONTEND DEVELOPER

From the moment I produced a “Hello World” in the console of my first application I knew I was hooked into Software Development. This has led me to continuously learn new technologies to improve my skills.

Below you'll see projects I have completed to showcase my skills in software development.

Education

Fronted Developer

Scrimba (6 Moths Course)

11/2022 - 05/2023

Diploma In Information Technology

ICESA Education (One Year)

02/2012- 02/2013

Skills

JavaScript

HTML

CSS

React

Firebase Basics

Work Experience

Personal Dashboard

Live: (<https://best-chrome-ext.netlifyapp>)

- This is a cool personal dashboard that is a chrome extension that opens every time you open a new tab.
- This project utilizes DodgeCoin API, OpenWeatherMap API and Unsplash API through Javascript, HTML and CSS.

Startup Website

Live: (<https://mavovo-coding.netlify.app>)

- Even though I used JavaScript in this project, I was challenged by CSS to make a good-looking layout.
- The website also features a form that can a potential student can fill in to enroll or ask questions.

Password Generator

Live: (<https://mav-passwordgenerator.netlify.app>)

- Built this web app as a challenge from <https://www.frontendmento.io> where I had to follow design specs on a document made with Figma.
